Invisible Mount L-1

- Mounts on any vertical surface, eaves, fascia, wall or 2"x4"
- Brackets disappears when installed
- Includes QPA-1-158
- Shipping Weight 2 lbs.

The L-1 is designed to lag bolt to the fascia of the eave. Installers can mount the bracket across the gable of the roof, or at any other angle of the Eave Fascia. Lag bolts are suggested to secure bracket to fascia. (*Lag bolts not included*) Installers save time by not having to mount on the roof. Drilling holes into the roof is not needed.

The L-1 is powder coated for a lasting finish, Lag Bolts not included with purchase.

The L-1 comes with a QPA-1-158, Quick Pipe Adapter or can be sold separately. Please call or email A.I. Satellite Distributors for more information.

Not sure of which product is necessary for your install? Call us at A.I. Satellite Distributors.

Our staff would be happy to help find the right product for you.
